### BORUM LINE ERASER

For trouble-free line removal, the Borum LineEraser is easy to handle and operate. Designed to remove old traffic markings of all types. Ideal for small jobs or on-the-spot corrections, the Borum Line Eraser is a powerful, walk-behind line remover.

The Borum® LineEraser is compact and easily maneuverable. A dual belt drives the cutter head assembly outfitted with three cutters:

- To remove thin layers (e.g. cold paint markings) use the 48 pin carbide cutter.
- To remove thicker layers (e.g. thermoplastic) use the 24 pin carbide cutter.

Made of Tungsten Carbide, both versions provide optimum wear resistance. And the tilt-up cover makes it easy to maintain and change the eraser heads. Borum LineEraser works extremely efficient by breaking the coating and scraping across it simultaneously and leaves no sharp-edged grooves in the surface.

# MUST HAVE FOR ROAD LINE REMOVAL

Weighing in at just over 200 kilograms (440 lbs), the Line Eraser is robust and stable. And with two front wheels and two swiveling back wheels, it's remarkably easy to maneuver for its weight. As far as performance goes, for road markings with a thickness of 1 millimeter (39.5 mils) and a width of 200 millimeters (8 inch), the Line Eraser can remove about 200 meters (656 feet) an hour.

## TECHNICAL SPECIFICATIONS

Operation width: up to 25 cm (10 inch)

Engine: Briggs & Stratton, 13.5 HP (10 Kw)

4-stroke, operating on gasoline

## DIMENSIONS

Length: 114 cm (45 inch)

Width: 60 cm (24 inch)

Height: 90 cm (35.5 inch)

Weight: 204 kg (450 lbs)
